EXPERIENCE

Software Developer at iTack Solutions

Sep 2024 - Present

- Developed asynchronous, web-based healthcare applications, including POS invoicing systems, EMR, and EHR.
- Leveraged C#, ASP.NET WebForms, ASP.NET Core, AJAX, and SQL Server to create scalable, efficient workflows for healthcare operations.
- Streamlined workflows for patient management, billing, invoicing, inventory, and compliance tasks, improving operational efficiency.
- Integrated language translation features, enabling multilingual support to increase accessibility for global users.

Jr Dot Net Developer at LN Technologies

Jun 2024 – Sep 2024

- Contributed to the MyRC Project, a responsive web application for Johnson County (U.S. government), managing client and service-related data Operations.
- Designed and developed dynamic web interfaces using ASP.NET WebForms, AJAX, and VB.NET, ensuring a responsive and user-friendly experience.
- Integrated SMTP and Twilio for secure email notifications and communication within the application.
- Built back-end modules with VB.NET and ADO.NET, optimizing database interactions with SQL Server for real-time updates and secure data processing.

Software Developer at e-Creatorz

Sep 2022 - June 2024

- Built ERP solutions using ASP.NET WebForms, Hybrid Blazor MAUI, VB.NET, and ADO.NET, focusing on efficient database connectivity with SQL Server.
- Developed and maintained dynamic front-end interfaces using HTML, CSS, JavaScript, Bootstrap, Razor, and Telerik UI components.
- Collaborated with team members and consultants to resolve issues and deliver high-quality solutions tailored to client needs.
